RESEARCH INTERESTS	I am passionate about furthering our scientific understanding of black-box deep networks to develop robust, interpretable, and efficient models for computer vision. I currently study (1) interpretability and (2) energy efficiency of deep models during test-time adaptation.

EDUCATION	The University of British Columbia (UBC), Vancouver, British Columbia, CA. · Ph.D., Computer Science, expected 2030 · Certificate in Instructional Skills for Graduate Students Western Washington University (WWU), Bellingham, Washington, USA. · M.S., Computer Science, June 2025, GPA 4.00/4.00 · B.S., Computer Science, June 2024, GPA 3.78/4.00 · Minors in Mathematics and Honors Interdisciplinary Studies
GRANTS AND AWARDS	Graduate · Maria Klawe Service Award, UBC CS Dept., 2026 · AML-TN Funded Trainee, UBC CS Dept., 2025 · CS Merit Scholarship, UBC CS Dept., 2025 · Outstanding MS Graduate in CS, WWU, 2025 · Dean J. Alan Ross Travel Fund Award, WWU, 2024 · CS Graduate Fellowship, WWU CS Dept., 2024 · Graduate Recruitment Tuition Waiver, WWU, 2024 Undergraduate · Outstanding BS Graduate in CS, WWU, 2024 · 1st-place for CS poster presentation, Emerging Researchers National (ERN) Conference, 2024 · Barbara Ellen Maguire-Veith Family Scholarship, WWU CS Dept., 2023 · Fellow, International Network for Bio-Inspired Computing (IN-BIC), 2023 · Lars and Elaine Giusti Scholarship for CS, WWU CS Dept., 2022 · CS/Math Distinguished Scholar Award, WWU CS Dept., 2020-2023 · Western Foundation Distinguished Scholar Award, WWU, 2020 · Merit Scholarship, WWU, 2020 · Admissions Achievement Award, WWU, 2020 · Admissions Annual Scholarship, WWU, 2020 · Scholarship Award, WSECU, 2020
EXPERIENCE	Graduate Research Assistant, UBC and Vector Institute for AI, Sept 2025–present · Studying interpretability and efficiency of test-time adaptation with Dr. Evan Shelhamer · Supported by UBC's Advanced Machine Learning – Training Network (AML-TN) trainee award Masters Intern, Pacific Northwest National Laboratory (PNNL), June–Aug 2025 · Worked on Math for AI Assurance with Dr. Henry Kvinge · Fine-tuned a base LLM using Group Relative Policy Optimization for statistical weight analysis Graduate Teaching Assistant, WWU, Dec 2024–June 2025 · Taught weekly labs and graded for an introductory data science class · Graded for a graduate analysis of algorithms class Graduate Research Assistant, WWU, June 2024–June 2025

- Developed stochastic rainbow networks with Drs. Kameron Harris, Guy Wolf, and Guillaume Lajoie

Undergraduate Research Assistant, WWU, June 2022–June 2024

- Developed randomized scattering convolutional networks and learnable structured random features with Drs. Kameron Harris, Guy Wolf, and Guillaume Lajoie

Research Intern, Mila - the Quebec AI Institute, Montréal, QC, July–Sept 2023

- Co-advised by Drs. Guy Wolf and Guillaume Lajoie studying learnable structured random features
- Funded by IN-BIC fellowship grant through National Science Foundation (NSF) AccelNet program

Undergraduate Research Assistant, WWU, April 2021–March 2022

- Worked with Dr. Scott Wehrwein on project applying machine learning techniques to international border legibility tasks for computer vision

PRESENTATIONS

Computer Vision Fundamentals

- Cohere Labs ML Summer School, July 2026 [\[recording link\]](#)

Green TTA: Benchmarking the Energy Efficiency of Test-Time Adaptation

- AI/CRV, Burnaby, BC, May 2026 (poster)
- 2nd International Workshop on Low-Carbon Computing (LOCO), Lancaster University, UK, Sept 2026 (lightning talk)

What Changed? Interpreting Model Updates During Training and Test-Time Adaptation

- Canadian Celebration of Women in Computing, Vancouver, BC, Nov 2025 (oral)
- ACM Celebration of Cascadia Women in Computing, Vancouver, BC, Oct 2025 (poster)

Learning Stochastic Rainbow Networks

- Graduate Research Symposium, WWU, Bellingham, WA, June 2025 (oral)
- ERN Conference, Atlanta, GA, Mar 2025 (oral)
- NeurIPS Workshop on the Science of Deep Learning, Vancouver, Canada, Dec 2024 (poster)

Learning and Aligning Structured Random Feature Networks

- NeuroAI Workshop, University of Oregon, Eugene, OR, Aug 2024 (oral)
- CoNectome Symposium, University of Washington, Seattle, WA, May 2024 (poster)
- ICLR Workshop on Representational Alignment, Vienna, Austria, May 2024 (poster)
- ERN Conference, Washington DC, Mar 2024 (poster)

Randomized Scattering Convolutional Networks

- DeepMath Conference, Johns Hopkins University, Baltimore, MD, Nov 2023 (poster)
- NeuroAI Workshop, Mila, Montréal, QC, Oct 2023 (poster)
- NSF S-STEM Scholars Meeting, Washington DC, Sept 2023 (poster)
- NeuroAI Workshop, University of Washington, Seattle, WA, Sept 2022 (poster)

SERVICE

- Reviewer: NeurIPS (2025), ICLR Sci4DL and TTU Workshops (2026), UBC CSSRC (2026)
- Co-Chair, UBC Computer Science Student Research Conference, Nov 2026
- VP of Academics, UBC CSGSA, 2026-2027
- Co-Organizer, AI/CRV Workshop on AI for Sustainability and Science, May 2026
- Co-Organizer, UBC Graduate Women in Computer Science (GWICS), 2025-

TECHNICAL SKILLS

Languages: Python (PyTorch, HuggingFace, numpy, pandas, scikit-learn), Java, C, Javascript

Systems: Bash, Linux, L^AT_EX, git, HPC cluster environments, AWS

SOFT SKILLS

Event planning, leadership, communication, community building
